

## NEW ENTOMOLOGIST HAS BEEN NAMED

F. B. Paddock Appointed to Succeed  
William Howell, Who Goes  
to Florida

Announcement of the appointment of F. B. Paddock as State entomologist and entomologist in charge at the experiment station, succeeding William Howell, who resigned to become plant commissioner of Florida, was made public today by E. Youngblood, director of experiment stations, headquarters at the A. & M. College. Mr. Paddock has been entomologist at the experiment station since 1911. He will take charge of the office immediately.

The State has named the State entomologist and entomologist in charge at the experiment station as the entomologist charged with the enforcement of the State foul brood law.

Director Youngblood today issued the following statement concerning the appointment of Mr. Paddock:

"The present foul brood law in Texas was enacted by the Thirty-third Legislature, approved March 27,

1911, and became a law shortly thereafter.

"The entomologist in charge, division of entomology, Texas agricultural experiment station, is named in the law as the State entomologist who is charged with the enforcement of the law.

"The law was secured by virtue of the activities of the beekeepers of the State and the appropriation for use in its enforcement was secured largely through their efforts.

"The beekeeping industry of Texas has suffered heavy losses because of the existence of foul brood. Some headway was made against it, however, until two years ago, when the Legislature failed to make provision for the support of this work. During the year and more that followed before an appropriation was secured, foul brood spread back into many sections from which it had hitherto been eradicated. Headway is again being made under the best financial support for the work in the history of the State.

"Upon the resignation of Mr. Newell, F. B. Paddock has been named as his successor and to him falls the enforcement of the law. Mr. Paddock is well fitted for the work for several reasons. He is a graduate in entomology from the State Agricultural College of Colorado and has done

three summers advanced work at the Ohio State University under Prof. Herbert Osborn, one of the most distinguished entomologists in the country. Most of his work at Ohio has been founded on Texas insect problems. During his four years under Mr. Newell, Mr. Paddock secured much practical experience with bees and familiarity with the foul brood eradication work.

"It is fortunate indeed that Mr. Paddock always has pursued the plan of mixing practical experience with theoretical training. After spending his first three years in college, he spent three years in practical work with the Great Western Sugar Company in Colorado. He then returned to college for another year and received his degree, specializing in entomology.

"The inspection work is conducted by local county foul brood inspectors appointed by the State entomologist, subject to the approval of the director and the board of directors of the Texas agricultural experiment station. These inspectors are suggested to the State entomologist by the county beekeepers' associations. No inspector is appointed unless the local association is properly organized and co-operates with the State entomologist in suggesting the local inspector.

"Any questions relative to the existence of foul brood, the shipment of bees, honey and appliances, should be addressed to the State Entomologist, College Station, Texas."

Mr. Paddock is well known in Texas, having visited all sections of the State to direct the fight against insects which were destroying the crops.

### ALLEN FOOTBALL GAME.

Coach Firth is putting his men through hard scrimmages practice and working to develop his ends and center men to meet a company team from the A. & M. College Saturday afternoon. The coach realizes this will be one of the hardest games of the season from last year's experience, when they beat the academy 6 to 0.

There will be no better game on the ground this season and a large crowd should see it.

A small admission fee will be charged to defray expenses.

The game will be called at 3 o'clock.

### SUPPER ENTERTAINMENT.

By HERBERT WILLIAM BIRD.

Miss Schumann-Hink has just been granted a divorce from William Rapp Jr. of Chicago, her third husband and her junior by many years.

Sousa and his band are playing for the New York Hippodrome, taking the place of the regular orchestra.

Josef Liebertz, the noted Russian pianist, although a prisoner in Germany, is permitted to give concerts and is treated with consideration.

A monument to Beethoven, presented by the Beethoven-Mannheimer of New York to the city of San Francisco, has recently been placed in Golden Gate Park.

One summer concert over in Melbourne, Australia, by the peerless Melba, netted \$51,000, which was given to the Belgian relief fund.

It has been suggested by the California Music Teachers' Association that "The Stars and Stripes Forever," composed by that premier bandmaster, John Philip Sousa, be made the official march of our country.

Since the war broke out, it is said, over five hundred musicians have been fed daily by the Association of German Concert Artists in Berlin. Pretty hard times for musicians over there!

Caruso, proclaimed by many as the world's greatest tenor, and the largest salaried of all singers, has been having a successful season in Buenos Ayres, receiving \$7,000 a night. Pretty good picking for singers down there!

John McCormack, the famous Irish tenor, is to make a much more extended tour of the South this season than he has ever made before. He is now 31 years old. Ten years ago his name was unknown to the musical world. The gross receipts of his concerts last season, ending in June, were \$375,900. Pretty good times for musicians over here!

The following artists will appear in Dallas this season: Emmy Destin, dramatic soprano; John McCormack, tenor; Yvonne de Treville, soprano; Maud Powell, violinist; Reed Miller,

## Many Positions Carrying Large Salaries

are open today to men in every walk of life. But the men must possess vigorous bodies and keen, active minds.

Success-making mental and physical activity relies largely upon right living wherein the right kind of food plays a most vital part.

In many cases the daily diet lacks certain of Nature's elements essential to energizing and upbuilding the mental and physical faculties. Most white flour products, such as white bread and many other commonly used foods, are in that class.

A food especially designed to offset this lack—

## Grape Nuts

—made of wheat and malted barley, supplies all the nutriment of the grains, including the mineral salts—sturdy builders of brain, nerve and muscle.

Grape-Nuts is thoroughly processed, ready to serve from the package, fresh, crisp and delicious. Then, too, there's a wonderful return of the power to "do" and to "be" for the small energy required in its digestion.

After repeated set-backs thousands have found a change to right eating means forging ahead.

"There's a Reason" for Grape-Nuts

Sold by Grocers Everywhere.

## Get this for what ails you!

JUST about as soon as you get next and try Prince Albert tobacco you'll wise right up that it was made for your taste! And that's no idle dream!

Line up in the row with other men; then you'll sure enough wake up to some pipe and cigarette makin' facts! It's this way: Costs you a dime for a tidy

red tin of P. A. that'll prove in jig time that you never did get such flavor and fragrance, whether you hit a jimmy pipe or roll up a delightful makin' cigarette.

## PRINCE ALBERT

the national joy smoke

Puts the half-Nelson on all pipe and cigarette grouches because it can't bite tongues and can't parch throats. And you prove our say-so! P. A. is made by a patented process that cuts out the bite and the parch. This patented process is controlled exclusively by us. Remember that when you hear some of that "as good as P. A." stuff!

Right off the bat you'll get mighty happy if you'll go to Prince Albert like you're on the trail of a best bet. For you never will get honest and true tobacco satisfaction till you get chummy with Prince Albert—the national joy smoke!

Sold everywhere in happy red bags, 5¢; tidy red tins, 10¢; also in pound and half-pound tins.

R. J. REYNOLDS TOBACCO CO., Winston-Salem, N. C.

William Fox presents the greatest cast ever assembled, headed by Frederick Perry, star of "On Trial," in Dr. Darnley. Queen Theatre Tonight.

tenor; Geraldine Farrar, soprano; Harold Henry, pianist.

### HOTEL BRYAN ARRIVALS

The music loving public will regret to know of the recent deaths of Paul Wachs, composer of many popular piano pieces; of Teresa del Riego, composer of "O Dry Those Tears," "Slave Song," and many other successful compositions, and of Edwin Greene, who was the author of "Sing Me to Sleep."

The death of Fanny Crosby this year removes one who has long been a living spirit in church symphony. She was 95 years of age. Blind from her infancy, she was the author of over eight hundred hymns, many of which were set to music by her husband, Alexander Van Alstyne. Some familiar ones are "Blessed Assurance," "Rescue the Perishing," "Near the Cross," "Close to Thee," and "Pass Me Not."

### ATTENTION, W. O. W.

There will be a regular meeting tonight at 8 o'clock; business of importance; initiation work.  
R. P. LEE, Consul Commander.

J. M. McNulty, New York.  
G. E. Sandel, New York.  
W. G. Parr, Dallas.
